

Manage Clinical Skills with Kahuna & Workday

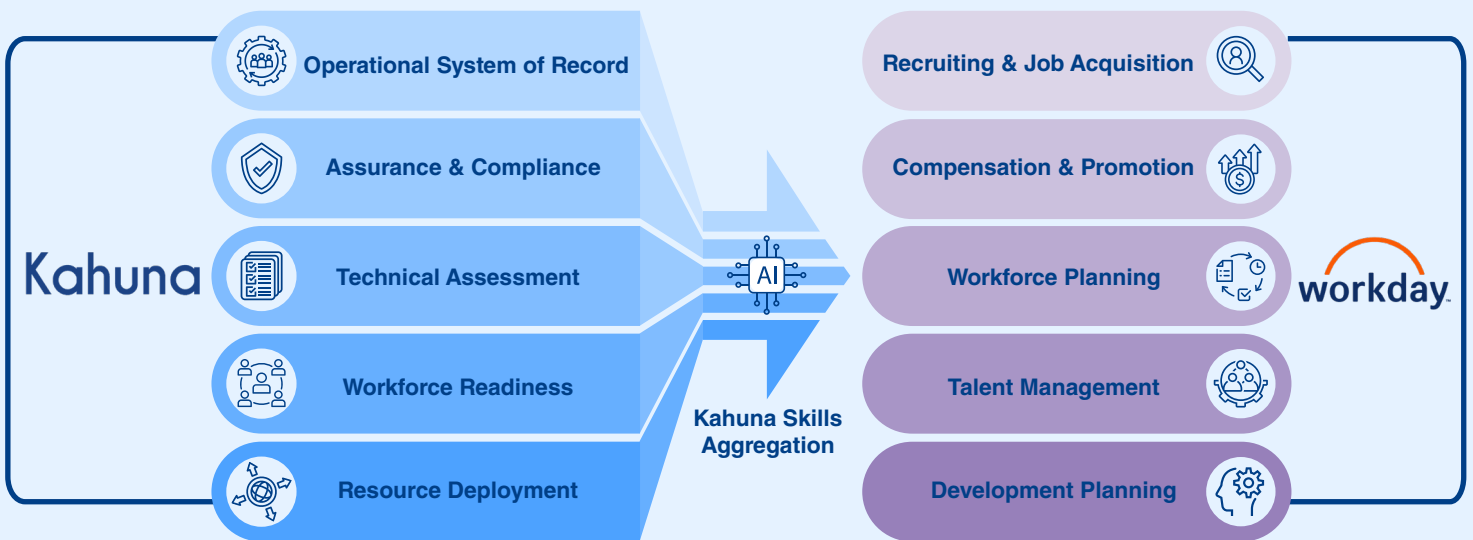

Validated Clinical Competency, Aligned to Skills-Based Strategy & Care Delivery

Kahuna enables healthcare organizations to centralize and manage clinical competencies in one dynamic platform. With proven integrations into Workday, Kahuna helps ensure nurse readiness, drive career development, and maintain accreditation and compliance, all while feeding operationally validated skills data back into Workday to support system-wide skills-based strategies.

- **Assess and validate proficiency in real-time** using observational checklists, quizzes, on-the-job training, experiential learning, and more.
- **View skills assessments and gaps** at an individual, team, or organizational level in one dashboard to identify strengths and weaknesses, and employees with required skills.
- **Access skills management anytime, anywhere** with Kahuna's mobile app, available on Android and iOS, online or offline.
- **Support nursing career growth** with Kahuna's Clinical Ladder, a proven solution for Magnet® hospitals.
